Ahmad Raimov

Data Analyst | SQL • Python • Power BI | Open to Remote
Tashkent, Uzbekistan

Summary

I'm a Data Analyst with hands-on experience in SQL,
Python, and business intelligence reporting.

What I work with:
→ SQL (MySQL, PostgreSQL) — complex queries, JOINs,
window functions, subqueries, anti-fraud logic
→ Python (pandas, scikit-learn) — data pipelines,
analysis, predictive modeling
→ Power BI & Chart.js — interactive dashboards
and business reports
→ AI tools (Claude, ChatGPT) — daily workflow
for faster, deeper analysis

Projects I've built:
→ Banking & SQL Analysis — customer segmentation,
churn detection, fraud flagging, employee analytics
→ Student Management System — relational database
design with multi-table JOINs
→ → Live Analytics Dashboard — end-to-end: API data
collection → Python processing → predictive model →
deployed dashboard
https://raimovahmad.github.io/Youtube-Analytics-Dashboard/

I enjoy turning messy data into clear insights that
drive real decisions.

Open to remote Data Analyst opportunities globally.

Experience

LLC "YOSHLIK"
Manager of Operations
January 2008 - September 2023 (15 years 9 months)
Ташкент, Узбекистан
